

## Oasis of the Seas: Not your typical Cruise Ship ...in any way, shape or form.

Oasis of the Seas, the world's largest cruise ship.

This is an exciting time for Royal Caribbean International® as they introduce their newest, most innovative ship yet - Oasis of the Seas<sup>SM</sup>.

With more amenities, more activities and more adventure onboard than any other ship before her, Oasis<sup>SM</sup> offers an experience to last a lifetime.

Oasis of the Seas is the largest and most revolutionary cruise ship in the world. An architectural marvel at sea, she spans 16 decks, encompasses 225,282 gross registered tons, carries 5,400 guests at double occupancy, and features 2,700 staterooms.

As the ultimate expression of Royal Caribbean's legacy of imagination and innovation, Oasis of the Seas introduces unique industry "firsts" including a neighborhood concept - seven main themed areas providing guests with the opportunity to seek out relevant experiences based on their personal style, preference or mood.

Central Park

Multi Level loft Suite

Within these seven neighborhoods - Central Park, Boardwalk, the Royal Promenade, Pool & Sports Zone, Vitality at Sea Spa and Fitness Center, Entertainment Place and Youth Zone - are extraordinary elements such as the first living park at sea; a thrilling zip line that races diagonally nine-decks above an open-air atrium; an original handcrafted carousel; 28 multilevel urban-style loft suites boasting floor-to-ceiling windows; an amphitheater-style theater that serves as a pool by day and a dazzling ocean front theater by night; and an array of epicurean innovations that allow for new culinary experiences each day of a guest's cruise vacation.

The gigantic 28,000-square-foot Adventure Ocean complex is built around a main artery called Kids Avenue, a central boulevard connecting kids with Adventure Ocean spaces and various customized play areas geared to specific activities.

And it has some amazing stuff for children. It harbors the cruise line's first nursery for infants and toddlers (six months or older) as well as state-of-the-art teen areas.

The zip line is 82 feet in the air.

These cabins have a balcony, but the balcony doesn't face the ocean. Instead, these balconies look out onto the open-air core of the ship. In a way, they're somewhat of an inside cabin.

Yet, they're not confining as you simply slide open the balcony door to go outside and check the weather, observe trees and plants blowing in the wind below.

Royal Caribbean promised "the wow." And it is all of that and more!

The ship will sail from her home port of Port Everglades in Fort Lauderdale, Fla.

Royal Caribbean International has 21 ships currently in service and one under construction. The line also offers unique cruise tour land packages in Alaska, Canada, Dubai, Europe, and Australia and New Zealand.
